

## Highway Lonely

Claude King

Well I'm trapped in web of my own makin' all because your love  
was easy takin'  
You had me believing that I was the only one I didn't know you  
were only having fun  
I made a mistake when I went to your house  
You played with my emotions like a cat with a mouse  
You quit me cold and said we are through  
You put me on highway lonely goin' somewhere new  
Highway lonely oh where does it goes I've asked everybody nobod  
y knows  
If there's anybody that wonders bout me  
I'm walkin' on highway lonely that's where I'll be  
I wish I could stop thinkin' bout you thinkin' of all the good  
times we've had  
But while I'm sitting here with all my thinking you're doing so  
mebody bad  
Highway lonely oh where does it goes...  
I'm walkin' on highway lonely that's where I'll be
