

# Better Than This

Clawfinger

Every day of my life i run a race against time  
because the state of the world is in the state of my mind  
without peace in mind there's no peace at all  
it takes more than a wall to make the barriers fall  
I can't live as i learn when i'm still learning to live  
how can i give what i got if i can't even forgive  
but i won't sell my my soul for that eternal bliss  
because i know that it's got to get better than this  
Every day is a fight against restrictions and rules  
and every day is a fight against the white collar fools  
but i'm as free from sin as you're ever going to be  
so don't you wave your pathetic bible book at me  
you're so sad it makes me sick how many times will it take  
before you chiggidycheck yourself and learn from past mistakes  
so don't you try to persuade me with your Judas kiss  
because i know that it's got to get better than this

Better than this, better than this I know that it's got to get better than t  
his  
Better than this, better than this I know that it's got to get better than t  
his  
Better than this, better than this I know that it's got to get better than t  
his  
Better than, better than, better than this I know that it's got to get bette  
r than this

Every day all the time in the back of my mind  
i keep on myself how we can be so blind  
do we care are we aware of the fatal fact  
that the world is a mess and that it's time to react  
we can't keep looking back we can't live in the past  
we've got to get ourselves together cos' were going down fast  
I'll do whatever it takes except raise my fist  
because i know that it's got to get better than this

Chorus

I believe in peace love and unity  
and i Believe in one big community  
I believe in the human good will  
and i believe that nobody has the right to kill  
we're all born with the same abilities  
but we don't all get the same possibilities  
this is a life that's to good to miss  
and i know that it's got to get better than this

The biggest crimes are being made behind closed doors  
in the minds of the people that are making the laws  
they're committing the crimes without doing the time  
so how do we know where we're supposed to draw the line  
I've got no fucking respect for all the people that believe  
that any way can be good if you can get what you need  
It's a typical political pool of piss  
and i know that it's got to get better than this

Chorus
