

# I Need You

Clawfinger

All my disillusionations are filling up my head  
And all of my frustrations are lying in your bed  
All my explanations just don't make any sense  
Leave me be babe can't you see the tensions to immense  
You just can't understand me so you drag me to the ground  
But I don't hear a single word  
You just can't bring me down  
So don't you dare to criticize the way I think and live  
All you get is what I've got and all I want to give

I love you I hate you I kiss you I rape you  
I cheat and deceive you I leave you  
I love you I hate you I kiss you I rape you  
And I cheat and deceive but I need you  
And I cheat and deceive but I need you

You say you really need me and then you close the door  
You say you want to leave me and then you beg for more  
Well I ain't sentimental so don't try to set a trap  
Cos everytime you hug me you stab me in the back  
If you want my body then just make love to my mind  
And don't you try to hurt me cos I ain't the hurting kind  
I told you that I loved you but you didn't care at all  
I needed you to touch me but instead you crushed my balls

I love you ....

I know I said I need you but that was just a lie  
You asked me if I loved you but you never asked me why  
So now you've got your answer and I hope you're satisfied  
And don't you dare to tell me that you ever even tried  
There's nothing I can give you that you ain't already got  
Cos even when you've got it all you say that I forgot  
To give you all my loving and to give you all my time  
There's ain't enough for the both of us and right now I want mi  
ne

I love you ....
