

## Grace Of God

Clay Aiken

Some folks always get the rough ride  
Seem they end up on the wrong side  
Constant battle just to survive on any given day

Watched a mother on my TV  
Hungry children that she can't feed  
Still I've got everything that I need  
And that just don't seem right  
That I sleep safe tonight

There's gotta be some rhyme or reason why  
We turn away and we close our eyes  
Wish I could find some way that we could justify all of this suffering  
There but for the grace of God go I

Everyday it makes the headlines  
Someone struggling for their lives  
Feels like I'm watching from the sidelines  
When nothing ever changed  
Just the truth got rearranged

There's gotta be some rhyme or reason why  
We turn away and we close our eyes  
Wish I could find some way that we could justify all of this suffering  
There but for the grace of God go I

Sometimes it's hard to believe  
In a truth that we can't even see  
But faith holds the hope for the world  
And I know, I know

There's gotta be some rhyme or reason why  
We turn away and we close our eyes  
Wish I could find some way that we could justify all of this suffering  
There but for the grace of God go I

When I'm thinking it's a bad day  
Feels like nothings going my way  
I pass a wreck out on the freeway  
And I pray that they survived  
There but for the grace of God go I.
