

# I Can't Forget Her

Clay Walker

She found a cowboy  
And I hear they've settled down somewhere out west  
I guess it's for the best  
He in Deo Rio  
Nothin' seems to change except the weather  
And I can't forget her

Shes goes runnin' through my mind  
Like that Rio Grande river winds through the desert  
And I can't forget her  
No, I can't forget her

There's a senorita that is waitin' just over the border line  
For me tonight  
And I could hold her  
And this tequila could help me love her  
But there's still another

These endless starlit nights  
Remind me of her eyes  
And the warm breeze is like her arms wrapped around me

She found a cowboy  
and I hear they've settled down somewhere out west  
I guess it's for the best  
And I can't forget her  
I just can't forger her
