

## If You Ever Feel Like Lovin' Me Again

Clay Walker

I remember when it all began  
You couldn't keep your body from my hands  
I remember nights we felt so close  
How we got so distant, I don't know

So as you plan, your brand new life  
Keep this one thing in mind

If you ever feel, like lovin' me again  
The door's wide open, baby walk right in  
I'll be waitin', 'til the end of time  
Heart and mind, now just like back then

If you ever feel like needin' someone  
Who will love you like I've always done  
Girl, I'll show you some things never end  
If you ever feel like lovin' me again

People change and baby so do dreams  
They move along to where the grass is green  
So I won't hold you down to what we had  
Last thing I wanna do is make you sad

But if things don't fly your way  
Girl, it's never too late

If you ever feel like lovin' me again  
The door's wide open baby walk right in  
I'll be waitin' 'til the end of time  
Heart and mind now just like back then

If you ever feel like needin' someone  
Who will love you like I've always done  
Girl, I'll show you some things never end  
If you ever feel like lovin' me again

If you ever feel like needin' someone  
Who will love you like I've always done  
Girl, I'll show you some things never end  
If you ever feel like lovin' me again
