

Mexico

Clay Walker

Where do you go when it rains in Mexico?
Where do you hide when the bottom falls outta the sky?
And who do you love when the one you love's been lovin' someone else?
It ain't no fun tryin' to have fun all by yourself
So where do you go when it rains in Mexico?

I got a watered down Margarita stuck in the sand
The little umbrella's doin' the best that it can
Now everybody said, "This is the place to set your spirit free"
Well, I came down and the clouds came out and they poured down on me

So I gotta wring out my shirt when I get back to the hut
I gotta find a place to dry off my coconut
There's a pretty little brown-eyed girl flaggin' a taxi cab
She's alone so she might know, maybe I should ask, hey, hey, hey

Where do you go when it rains in Mexico?
Where do you hide when the bottom falls outta the sky?
And who do you love when the one you love's been lovin' someone else?
It ain't no fun tryin' to have fun when you're all by yourself
So where do you go when it rains in Mexico?

She supplied the transportation, I supplied the rum
When we got to the destination, I gave her some rum

Now I know where to go when it rains in Mexico
Where to hide when the bottom falls outta the sky
And who to love when the one you love's been lovin' someone else
It ain't been fun tryin' to have fun all by myself
So where do you go when it rains in Mexico?

Where do you go when it rains in Mexico?
Where do you go when it rains in Mexico?
Now I know where to go when it rains in Mexico
