

Sweet Sun Angel

Clay Walker

Blue eyes cuttin' through the summer day
Every ray of light seems to come from her face
From the tip of her toes to the top of her head
She's a hundred percent a American Girl

She's my sweet sun angel
Every bit of summer time
Never seen her look so fine
My sweet sun angel
If you ever see her on the street
You'll know just what she does to me
Just watch her shine and she's mine, mine, mine
She's my sweet sun angel

She's my umbrella in the pourin' rain
She's my shelter in this wild, wild hurricane
Gotta Heaven full of stars shinin' in her eyes
And I swear I haven't felt so good in my whole life

She's my sweet sun angel
Every bit of summer time
Never seen her look so fine
My sweet sun angel
If you ever see her on the street
You'll know just what she does to me
Just watch her shine and she's mine, mine, mine
She's my sweet sun angel

Loves me like I'm her tomorrow
And she's the light that I wanna follow

(Sweet)
Sweet, sweet angel
(Sweet)
Sun angel

My sweet sun angel
Every bit of summer time
Never seen her look so fine
My sweet sun angel
If you ever see her on the street
You'll know just what she does to me

My sweet sun ange
Every bit of summer time
Never seen her look so fine
My sweet sun angel, yeah
