

Sunshine

Clazziquai Project

Your sweet scent, you're bright smile
The wind blows your hair, I've fallen in love

You come closer, and I confess with nervousness
As I shake, I look into your eyes. I've fallen in love

Be my sunshine, you'll be finding
My heart that's been stopped by you
Be my rescue, you'll be finding
This late confession given on this sweet, summer night

Love has found me and talks to me sweetly
It sings me a song that fills this world, I've fallen
in love

Be my sunshine, you'll be finding
My heart that's been stopped by you
Be my rescue, you'll be finding
You're the bright stars that light up the night
Be my sunshine, you'll be finding
My mind awaits your wide smile
Be my rescue, you'll be finding
This late confession given on this sweet, summer night

You never meant to say to me in such a way
Love is never lasting we will make it true

Be my sunshine, you'll be finding
My heart that's been stopped by you
Be my rescue, you'll be finding
You're the bright stars that light up the night
Be my sunshine, you'll be finding
My mind awaits your wide smile
Be my rescue, you'll be finding
This late confession given on this sweet, summer night
