

The Road

Clazziquai Project

So you keep me glowing in
Any time
Take everything left behind
Getting over inexistence
Vanish world on time

Put on your gears and walk toward the sun
Ignore the stranger feeling in air
Come on, take my hand
Hope for survival
And you will soon get there

Now we take a rest to leave another day
(I wanna wish you fine)
But in many time
You have to let me go
(That is right)
Though the day is dark for you to walk alone
(I wanna wish you fine)
But in many time
You have to let me go

Now you see what's going on
All this time
Ashes covering strings of ground
Getting over inexistence
Vanish world on time

Put on your gears and walk toward the sun
Although we cannot hope for the best
Turning my stone
For you to see the end
And we will soon get there

Now we take a rest to leave another day
(I wanna wish you fine)
But in many time
You have to let me go
(That is right)
Though the day is dark for you to walk alone
(I wanna wish you fine)
But in many time
You have to let me go

Don't...
Now you don't have to say
Please don't
Now you don't have to say

Now we take a rest to leave another day
(I wanna wish you fine)
But in many time
You have to let me go
(That is right)
Though the day is dark for you to walk alone
(I wanna wish you fine)
But in many time

You have to let me go

Don't make me to cry... !

(Now leave me to cry)

Don't make me to cry... !

(Now leave me to cry)

Don't make me to cry... !

(Now leave me to cry)

Don't make me to cry... !

(Now leave me to cry)

Don't...

Now you don't have to say

Please don't

Now you don't have to say
