

First Love

Clea

Four In The Morning and I Just cant sleep
You don't know why
Missing you is killing me honey
Emotions cut deep

I've tried so hard baby
To make you see
You get back what you give
Can't get something for nothing
Nothing is ever for free

(Chorus)

Oh baby true love, comes only one time in your life
Take a close look
At your heart
See what you feel inside
â-ÜCause something so special
Just cant be denied
You were my first love, my last love, my life

You say you don't care
It's all over and done
It's a lie
Respect me for all I've been honey
We can overcome

You're trying to lose me baby
You push me away
You get back what you give
Can't get something for nothing
You're blind to all that you say

CHORUS

Every time I get too close
You pull away
Don't you act this way
(What kind of game) Are you trying to play
Don't let our chance slip away

CHORUS
