

## 270 Somethin'

Cledus T. Judd

You know a man does have to eat him somethin'

I love candy bars, eat them all the time  
My combo meal's are super sized  
And I crave the stuff they put inside those dang ding dongs

My cholesterol is off the chart  
I keep a blood pressure cuff on my left arm  
Doctor says that, ?My poor heart won't last too long?  
My nickname in school was double wide  
'Cause my momma fried

Now I weigh 270 somethin'  
Always huffin' and puffin  
Lay around the house all day  
No wonder I can't lose no weight

See that pizza on the TV  
Oh man' don't it look cheesy  
You know they deliver here for nothin'  
That's why I weigh 270 somethin'

My insurance said that they'd Co pay  
I made the same appointment Carnie Wilson made  
Plastic surgeon said he had a way to get those love handles off  
He stapled and sucked stuff through a tube

I lost a hundred pounds in one afternoon  
When I came to in the recovery room, wouldn't much left of me  
When he removed the bandages from my thighs  
I couldn't believe my eyes

Now I weigh 180 somethin'  
Didn't have to do much of nothin'  
I'm lookin' like Jean Claude Van Dame  
To fit in a pair Mark Wills' pants

Now everyone who sees me  
Can't believe that I'm so skinny  
My body fat is nearly nothin'  
Now that I weigh 180 somethin'

Now I date a model with a GED  
But do you think she'd be with me  
I wonder if I

Still weighed, 270 somethin'  
Stuffin' down blueberry muffins  
Onion rings and cans of SPAM  
That's how I got so fat

Now everyone who sees me  
Can't believe that I'm so skinny  
I used to break a sweat just doin' nothin'  
Back when I weighed 270 somethin'

Now I weigh 180 somethin'

Well it's probably like more like around 225-26  
None of y'all's business how much I weigh
