Beard Of Bees

Prisoners of ourselves Desperate little elves We hide inside a tree And wear a beard of bees

[Chorus] But do you know that when You're here with me That's the only time that I feel free

So wrap me in your skin A holiday of sin We'll take it when we can There is no master plan

[Chorus]

And everything is true If we think it through Or maybe it's a lie We'll find out when we die

[Chorus]
