

Happy Birthday

Clem Snide

Never have I been made to feel less doubtful
Never have I been made to feel less cynical
'Cause I haven't been to brave been mostly frightened
But I never thought that there would come a day

Well I hope that your song's not be "boys of summer"
Just because you were both born on that day
And half-Jewish boys make kick ass drummers
But if you need lessons I'll have to pay
And I hope that your friends are true and funny
And your girlfriends are sweet and wear tight pants
And after your heart is gently broken
I hope that you get a second chance

Just let some air in
Just turn on some light
Just make some room inside

Never have I been made to feel less heavy
Never have been made less cynical
Cause I haven't been to kind been unforgiving
But I never thought that there would come a day
