

21st Century Christmas

Cliff Richard

The satellite's trackin' Santa
We text our Christmas list
And leave our mobile numbers
To help out ole' Saint Nick.
Sometimes we stop and wonder
Has that ole' bubble burst?
Or will this Christmas morning be like the first?
But tonight we still thank Bethlehem
And bless the Lord for love again
Bring peace on earth goodwill to men
It's the future not the past

Lets have a:
First night
Star bright
Child of light
So right
21st century Christmas
Magic morn
Tree adorn
Child is born
Safe and warm
21st century Christmas

We'll microwave some popcorn
Put on a DVD
Fax Tiny Tim a thank you
For blessing you and me
Sometimes we watch and wonder
Has Christmas lost its touch?
Can a world beyond the money
Be worth that much?

And tonight as we thank Bethlehem
And bless the Lord for love again
Bring peace on earth, goodwill to men
The future is the past

We'll have a:
First night
Star bright
Child of light
So right
21st century Christmas
We got a:
Magic morn
Tree adorn
Child is born
Safe and warm
21st century Christmas

Yeah!.yeah!.oh!oh!!

The satellite's trackin' Santa
He's got our Christmas list
We left our mobile numbers To help out ole! Saint Nick
Sometimes we stop and wonder,

Has that ole! bubble burst?
Or will this Christmas morning be like the first?

But tonight as we thank Bethlehem
And bless the Lord for love again
Bring peace on earth goodwill to men
The future is the past

Bring on a:
First night
Star bright
Child of light
So right
21st century Christmas
We got a:
Magic morn
Tree adorn
Child is born
Safe and warm
21st century Christmas
Wait for snow
Mistletoe Eyes aglow
Ho, ho, ho, ho!
Special wish
Writing list
Hug and kiss
All of this
21st century Christmas

The satelllite's trackin' Santa
Got him for you and me
I hope his flight is right on time
He's got my Christmas tree
The microwave's (full) of popcorn
Put on a DVD
And pray for peace on earth tonight
It's all we really need
It's all we really need
It's all we really need
It's all we really need
It's all we really need
It's all we really need
