

A Little Imagination

Cliff Richard

With a little imagination
You will find the world can be left behind
Life can be delicious with wishes in your mind

With a little imagination
You can be the one to make history
And though you're small
You feel tall as a popular tree

And with your magic carpet
You can be in Australia or Arabia
Sail the sea upon a luxury ship
If you only take my tip

Try a little imagination
I mean you because if you really do
All your little day dreams may come true

All you needing to succeed
In being a sensation
Is a little imagination

All you needing to succeed
In being a sensation
Is a little imagination
