

Always

Cliff Richard

If I could only try to find a way
To make you stay, beside me always
I give a pocket full of dreams away
To make you stay, beside me always

If I could have a day, I say a verse
And you could say, you need me always
And then there might be time
When I regret the things I've said

But if I wait too long, I'll lose you
My heart is sure to find the answer
That I'm searching for with you
La-la-la-la, la-la-la-la, la-la
La-la-la-la, la-la-la-la, beside me always

If I could have a day, I say a verse
And you could say, you need me always
If I could only try to find a way
To make you stay, beside me always
To make you stay, to make you stay
