

Baby I Could Be So Good At Loving You

Cliff Richard

Wanted to tell you, how I felt for so long
Skip to try 'cause it might turn out wrong
Wish I could tell you, take my time simplified
Let you know, what I kept to myself
Deep inside wanting to touch you

Baby I could be so good at loving you
Baby I could learn to love you a lot
Baby I could be so good at loving you
If you let me, we'll never start

Hoping that you feel like I do
Want me to loving you, means so much to me
Wait for the foreman, every day hope and pray
That today might be the one would
I could tell you, tell you I love you

Baby I could be so good at loving you
Baby I could learn to love you a lot
Baby I could be so good at loving you
If you let me, we'll never start

Baby I could be so good at loving you
Baby I could learn to love you a lot
Baby I could be so good at loving you
Baby I could learn to love you a lot
Baby I could be so good at loving you
Baby I could learn...
