

Catch Me

Cliff Richard

Catch me I've fallen for you
Catch me I've fallen for you
Catch me I've fallen for you

What was in that kiss you gave me
Never felt like this please save me
Catch me in your arms I've fallen for you little girl

Someone pulled a rug and flipped me
How was it for her you slipped me
Catch me in your arms I've fallen for you little girl

I never thought I'd tumble head over heels on my face
But here I go tumbling all over the place

Make my gypsy heart go crazy
Kiss me once again whoops a daisy
Catch me in your arms I've fallen for you little girl

Catch me I've fallen for you
Catch me I've fallen for you
Catch me in your arms I've fallen for you little girl

I never thought I'd tumble head over heels on my face
But here I go tumbling all over the place

Make my gypsy heart go crazy
Kiss me once again whoops a daisy
Catch me in your arms I've fallen for you little girl

Catch me I've fallen for you
Catch me I've fallen for you
Catch me I've fallen for you little girl.
