

# Christmas Is Quiet

Cliff Richard

A little cabin in the mountains  
Far away from city lights  
Here is where I come each Christmas  
To spend the night of nights  
Far away from crowds and noisy places  
Is where I long to go  
All I hear is peace inside me  
And the falling of the snow

Christmas is quiet  
It is simple, it is bright  
It's a time to remember  
Why it's called a Holy Night  
And children are dreaming  
Of Santa on his sleigh  
How I wish this season  
Would never go away  
(Christmas is quiet)

We sit in silence by the fire  
True, true love is never loud  
All our hearts express is giving  
That's what Christmas is all about  
I hope the world comes to its senses  
Peace on earth for me and you  
I hope it for the children  
That my wishes all come true

Christmas is quiet  
It is simple, it is bright  
It's a time to remember  
Why it's called a Holy Night  
And nothing compares to  
The joy of Christmas day  
How I wish this season  
Would never go away  
(Christmas is quiet)

Oh, how I wish this season  
Now was here to stay  
(Christmas is quiet)
