

Do You Remember

Cliff Richard

Do you remember
The first time that we kiss
Do you remember
It was on a night like this
Stars were up above
A boy and a girl in love
Sudden in your lover's mist
Planning, scheming, hoping and dreaming
From the first time that we kiss

Yes I remember
As you true to me
Yes I remember
That whispers in your ear
I say I love you true
You say you love me too
Sudden in your lover's mist
Planning, scheming, hoping and dreaming
From the first time that we kiss

Yes we'll remember
When we're old and grey
Yes we'll remember
The words we use to say
We'll go back in time, till the day sublime
Sudden in your lover's mist
Planning, scheming, hoping and dreaming
From the first time that we kiss
Mm...
