Cliff Richard

You can't sleep and you just can't eat
Keep on moving around looking for her shadow
You've been through it once, well, we all should know
When you lie awake, it takes so long for the night to go

You gotta heartbreak
It's not the front page
You gotta heartbreak
But it's not the page, page news

Six lonely days you wonder when you'll wake
From these dreams of the past, well, there's no time like the present
You think right now, there can be no one else
You say first love is best, well, we all must learn to grow

You gotta heartbreak
It's not the front page
You gotta heartbreak
But it's not the page, page news, no, no

Don't rush love, you must take your time
Try to play it cool, got to read between the lines
If you don't she will fly away
To some far off place where she won't receive your telephone calls

You gotta heartbreak
It's not the front page
You gotta heartbreak
But it's not the page, page news

It's just a heartbreak
It's not the front page
You gotta heartbreak
But it's not the page, page news
