

Gee Whiz It's You

Cliff Richard

Well, who's that a-walkin' down the street
Pickin' up those dainty little feet
Who's the one that catches my eye
Everytime she passes by - gee whizz it's you

Ever since we said goodbye, all because of a little white lie,
Let me tell you why we parted, listen now to what my heart says
,

Gee whizz it's you, you're the one that's makin' me blue
Gee whizz it's you, you're the one who can't be true

Little darlin' won't you hear my plea
Won't you please come back to me,
We can pick up where we started, listen now to what my heart says,
Ummmm - gee whizz it's you
Gee whizz it's you, you're the one that's makin' me blue
Gee whizz it's you, you're the one who can't be true

Little darlin' won't you hear my plea
Won't you please come back to me,
We can pick up where we started, listen now to what my heart says,
Ummmm - gee whizz it's you

Gee whizz it's you

Gee whizz it's you
