

Green Light

Cliff Richard

Searching for a green light
Looking for it all night
Using all my keen sight
Searching for a green light

From just this side of midnight
'Til dawn breaks into daylight
Keepin' myself out of sight
Searching for a green light

Well I've heard this story before
But that doesn't stop me searching
It's been so long since you gave me a sign
A sign to stop my head turning
But all I have are just your old memories
But you know baby, baby that's fine
Cos I'm spending all of my time

Searching for a green light
Looking for it all night
Using all my keen sight
Searching for a green light

From just this side of midnight
'Til dawn breaks into daylight
Keepin' myself out of sight
Searching for green light
Lookin' around

But all I have are your old memories
But you know baby baby that's fine
Cos I'm spending all of my time

Searching for a green light
Looking for it all night
Using all my keen sight
Searching for a green light

Searching for a green light
From just this of midnight
