

I Wish You'd Change Your Mind

Cliff Richard

I wish you'd change your mind and stay
It's really much too late to play games
All I want is just to talk with you
I'll even sing it if you want me to

You know my motives are sincere
And the love's the reason that we're here
Seeing you just makes me want to say
Won't you change your mind for me and stay

I just want to feel your arms about me
Is that too much to ask or do
You think that I'd be asking too much
I wish you'd change your mind and stay

It's really much too late to play games
All I want is just to talk with you
I'll even sing it if you want me to
