Lover

Cliff Richard

Lover, when you're near me And I hear you call my name Softly, in my ear you breathe a flame Lover, while we're dancing Please keep glancing in my eyes 'Till loves own entrancing music dies

All of my future is in you And to resist you I try My hope, you'll always continue to be mine Lover, please be tender While your tender fears depart Lover, please surrender to my heart

Oh, I say a devil is in you And to resist you I try But if you did not content you, I'll die

Lover, please be tender While your tender fears depart Lover, please surrender to my Lover, lover, please surrender Please surrender to my heart Lover, lover, please tender Please surrender to my heart Lover, please surrender to my heart
