

# Mean Streak

Cliff Richard

Well, you stand there honey, with you hands on your hips  
Well, it's stoppin' your feeling, baby, button your lips  
Yeah, you stand there honey with the devil in your eyes  
You say you're gonna leave me, but I know it's a lie

Uh uh honey, you got a mean streak  
Uh uh baby, you got a mean streak  
Well, if you wanna stay with me, be my lovin' honey  
You must lose your mean streak

You look so cute and you walk so nice  
Oh but your hide is as mean and as cold as ice  
Well, I found my heart, it was a big kind of faster  
And I know I was living in disaster

Uh uh honey, you got a mean streak  
Uh uh baby, you got a mean streak  
Well, if you wanna stay with me, be my lovin' honey  
You must lose your mean streak

Well, you're standing there honey, and you're looking so pretty  
Well, I'm gonna leave you standing there in a pity  
Well, you took my love and you threw it away  
And I know what's gonna happen to you someday

Uh uh honey, you got a mean streak  
Uh uh baby, you got a mean streak  
Well, if you wanna stay with me, be my lovin' honey  
You must lose your mean streak

Yeah, mean streak  
Oh baby, mean streak  
Oh honey, mean streak  
Oh, mean streak
