Power to All Our Friends

Cliff Richard

Power to all our friends, to the music that never ends To the people we want to be, baby power to you and me There's one old man spends his life growing flowers And caring for the bees - power to the bees There's one old lady, spent her days making wine The wine tasted fine Power to the wine Power to the boys who plays rock and roll and make my life so s weet And to the girls I knew before and those I've yet to meet Power to all our friends, to the music that never ends To the people we want to be Baby, power to you and me There's one strong man, he's ploughing in the valley He's living of the land - power to the land There's some young girl laying down in Monte Carlo Laying in the sun Power to the sun Power to the boys who plays rock and roll and make my life so s weet And to the girls I knew before and those I've yet to meet Power to all our friends, to the music that never ends To the people we want to be Baby, power to you and me Power to the boys who plays rock and roll and make my life so s weet And to the girls I knew before and those I've yet to meet Power to all our friends, to the music that never ends To the people we want to be, oh yeah, baby, power to you and me To the music that never ends Baby, power to all our friends To the music that never ends Baby, power to all our friends
