

This Day

Cliff Richard

This day, could have been such an ordinary day
Could have gone in an uneventful way
Then you came into my world
And in my world you will stay

You girl, could have been such an ordinary girl
Could have been just an undiscovered pearl
Then love came with its magic
And made you my world

I know I will always treasure
That first moment of pleasure
When we met

If I were to live for ever
There's one thing I would never
Quiet forget

Your kiss, could have been just an ordinary kiss
Could have been something I would never miss
But that could never be so
Not when I feel like this

If I were to live for ever
There's one thing I would never
Quiet forget

This day, could have been such an ordinary day
Could have gone in an uneventful way
Then you came into my world
And in my world you will stay
