

# This Love You Will Never Forget

Cliff Richard

This love you will never forget  
This love is forever  
This love you will never forget  
It's for ever

You say you're not ready yet  
You want to move on  
You need time to get your life together  
Well that's a big mistake  
'Cause I'm your true love  
And you're crazy leaving me

As each day passes by  
You will look back and ask yourself why  
Then you'll cry, cry tears of regret  
For the one love you won't forget  
As long as you live  
This love you will never forget  
This love you will never forget

This love you will never forget  
This love is forever  
This love you will never forget  
It's for ever

I can save your heart some hurt  
Look at the signal flashing red alert  
Don't start the journey, you could lose your way  
'Cause I'm your true love  
And you're crazy leaving me

As each day passes by  
You will look back and ask yourself why  
Then you'll cry, cry tears of regret  
For the one love you won't forget  
As long as you live  
This love you will never forget  
This love you will never forget

This love you will never forget  
This love is forever  
This love you will never forget  
It's for ever

I can promise you  
All the love that you're looking for  
And you my love  
You can rescue me  
And I won't need to wish any more

Oh, you say you're not ready yet  
You want to move on  
You need time to get your life together  
Well that's a big mistake  
'Cause I'm your true love  
And you're crazy leaving me

As each day passes by  
You will look back and ask yourself why  
Then you'll cry, cry tears of regret  
For the one love you won't forget  
As long as you live  
This love you will never forget  
This love you will never forget

This love you will never forget  
This love is for ever  
This love you will never forget  
This love you will never forget  
It's for ever  
This love you will never forget  
(3x)
