

This Time Now

Cliff Richard

Don't even try 'til your heart tells you why
You will notice the change, this time now
When you begin you're less likely to win
You've got love on your mind, this time now

Too many times you just let all your dreams slip away
Never before have you loved so much more than today
You're on your way this time

Don't even try 'til your heart tells you why
You will notice the change, this time now

This time now
Oh, this time now you are in love
This time now
Oh, this time now you are in love

Too many times you just let all your dreams slip away
Never before have you loved so much more than today
You're on your way this time

When you begin you're less likely to win
You've got love on your mind, this time now

This time now
This time now you are in love
This time now
Oh, this time now you're in love

This time now
Oh, this time now you're in love
