

Who Are We to Say

Cliff Richard

Who are we to say?
Why the Sun must shine
Why the raindrops fall
And why your heart is mine
Tell me darling, who are we to say?

Who are we to say?
How a love begins
Why should we feel guilty?
It's a kiss the waste of sense
Tell me darling, who are we to say?

So I throw away all this happiness
That was destined from the start
And though I throw away such a love like ours
When love comes only once to every heart

Who are we to say (who are we to say)
Why you care for me (why you care for me)
Like I care for you (like I care for you)
Why you're my destiny
If you think now, that our love's not here to stay
Tell me darling, who are we to say?

Who are we to say (who are we to say)
Why you care for me (why you care for me)
Like I care for you (like I care for you)
Why you're my destiny
If you think now, that our love's not here to stay
Tell me darling, who are we to say?
