

Bite The Hand That Feeds

Climie Fisher

I just can't let it be when everything's alright
Cos there's a part of me always has to start a fight

love's bitter mystery - hurts the one you need
It's a devil inside of me that takes control
It bites the hand that feeds

Last night just one word I threw it all away
I wish you'd never heard
And that I could turn the clocks back for one day
Love's bitter mystery hurts the one you need
It's a devil inside of me that takes control
It bites the hand that feeds
Hurts the one hurts the one you need
Bites the hand that feeds
Bite the hand bite the hand that feeds
Hurts the one you need

I want to turn on this control
I know it leads to self destruction
Turn it on tree my soul
I won't slave to these obstructions

Love's bitter mystery hurts the one you need
It's a devil inside of me that takes control
It bites the hand that feeds
love's bitter mystery hurts the one you need
It's a devil inside of me that takes control
It bites the hand that feeds

Hurts the one hurts the one you need
Bites the hand that feeds
Bite the hand bite the hand that feeds
Hurts the one you need
Hurts the one hurts the one you need
Bites the hand that feeds
