## **Love Changes Everything**

**Climie Fisher** 

I was only seventeen when she looked at me that way Seems like yesterday I was only foolin' 'round but she stole my heart away I've never been the same

I felt the strangest feeling like a raging fire it burned She left I cried for weeks and I can't forget her or the lesson that I learned

Love changes, changes everything Love makes you fly it can break your wings Love changes, changes everything Love makes the rules from fools to kings Love changes, love changes everything

Then the years went rollin' by I grew up and moved away Had to earn my pay Found another lover then But my heart is sad to say It only ended up the same way

And I wondered was I destined to spend my life alone Oh girl you answered my question This time it's working you've given me new hope

Love changes, changes everything Love makes you fly it can break your wings Love changes, changes everything Love makes the rules from fools to kings Love changes, love changes everything

I've seen the way love shakes ya makes ya break ya It's got a power of it's own

Love changes, changes everything Love makes you fly it can break your wings Love changes, changes everything Love makes the rules from fools to kings Love changes, love changes everything
