

Room To Move

Climie Fisher

I know it seems like I'm a million miles away
At times you feel like you don't even know me
But in this world the pressures building everyday
And I need time to work things out oh baby

It's not that I don't love you - oh no
It's just that I've got to have

Room to move that's all I need
That's all I ask for room to breathe
Room to move that's all I need
That's all I ask for - give it to me
Room to move everybody needs room to move

Everybody needs some freedom to survive
To shake the chains of responsibility
And you can help me make this feeling come alive
'Cos when you hold me dose that's when you set me free

Girl you know I'll always love you oh yeah
'Cos when we touch I get so much

Room to move that's all I need
That's all I ask for room to breathe
Room to move that's all I need
That's all I ask for give it to me
Room to move everybody needs
Room to move everybody needs room to breathe

You lose your mind if you don't take time
You cross that line and your mind explodes

You push too hard and your feelings starve
Emotions are all destroyed
Girl you know I'll always love you oh yeah
'Cos when we touch I get so much

Room to move that's all I need
That's all I ask for room to breathe
Room to move that's all I need
That's all I ask for give it to me
