You see a sign of youth  
I know you understand, that we both go up the hill  
And with the sectioned one, for the capital's nuns  
You see the moonbeams on the hill

Sunny, sunny, sunny whether  
Joely wasn't altogether true  
Still our cousin knew  
I, I, I, I, no, I, I, I, me me me me  
More I want to  
Bren coughed boo hoo hoo

And all the vegetables that serve as obstacles  
You see the moonbeams on the hill  
And with the sectioned one, for the capital's nuns  
You see the moonbeams on the hill

Sunny, sunny, sunny whether  
Joely wasn't altogether true  
Still our cousin knew  
I, I, I, I, no, I, I, I, me me me me  
More I want to  
Bren coughed boo hoo hoo
