

The Bridge

Clinic

Bits of batler cook in the glow,
You need the love you need it to show
Come come come oh how we know,
You need the love you need it to show

Come and glow
It's good as ever
Good as ever close

Look at all the sun on the waves
You need the love you need it today
Come come it's never too late
You need the love you need it today

Come and glow
Its good as ever
Good as ever close

Meet me on the bridge out of sight
You need the love you need it to die,
Come come you know that is time
You need the love you need it to show
Come and glow
