

Angels

Clique Girlz

Where have all the angels gone?
I've been listenin' for them, when
will they come around? I see darkness
everyday but with some help from above things are gonna change
they never stay the same

Angels, can you hear me callin'?
Angels, can you stop the rain from fallin'?
I know that you're watching, watching over me in Angels I, I believe

There've been things I can't explain
like how my prayers get answered almost instantly
What about all of those times, I've been followin' them
They lead me through my life,
they guide me towards the light

Angels, can you hear me callin'?
Angels, can you stop the rain from fallin'?
I know that you're watching, watching over me in Angels I, I believe

Maybe the people that we know (know)
Maybe they're still with us, even when they're gone
Oh I like to think that Heaven is a place on earth (earth)
Oh I like to think that everyone of us is taking turns watching
me

Angels, can you hear me callin'?
Angels, can you stop the rain from fallin'?
I know that you're watching, watching over me in Angels I, I believe

I believe, I believe (angels)
In angels I, I believe (angels)
I can feel you watching over me
I can feel you watching over me
I can feel you watching over me
Over me, angels (3x)

In angels I, I believe
