

Beautiful Thing

Clique Girlz

Am I losing my mind?
You're everywhere and I don't know why
Something I can't deny
Honey you're like a song in my head
And I can't do a thing about it

When you heart can't stop like a run-away train
and it feels so good but you can't explain
It's a beautiful thing

When you just can't think about anything else
and you give so much that you lose yourself
It's a beautiful thing
Hey-ey hey

I keep hearing your name
It's in the sound and it's in the ring
I just heard it again
Don't know how it go into my head
(oh woah)
No, I don't wanna be without

When you heart can't stop like a run-away train
and it feels so good but you can't explain
It's a beautiful thing
When you just can't think about anything else
and you give so much that you lose yourself
It's a beautiful thing

Hope this feeling
Never goes away
Hey Hey

Beautiful, beautiful, beautiful thing
Hey-ey

When you lose your way and don't have a clue
When you happen to find somebody like you
It's a beautiful thing

When you're on the moon and you can't get down
It's just me and you, no-one else around
It's a beautiful thing

When you heart can't stop like a run-away train
and it feels so good but you can't explain
It's a beautiful thing

When you just can't think about anything else
and you give so much that you lose yourself
It's a beautiful thing (It's a beautiful thing)
It's a beautiful thing
