

# Don't Waste Your Breath

Close To Home

Despite your efforts and best attempts  
And all the stab wounds in our chest  
We find a way  
To keep our heads up high  
Through everything until the day we die

Maybe you don't think I think for myself  
I hear you tell me one thing then see you do something else  
I've had enough prejudice against me  
So don't just assume I need to be told what to believe

We've become so different from who we used to be

Don't waste your breath  
That just won't work for me  
I've already decided who I want to be  
Although I used to be like you  
I found the road to my own truth  
It's just a matter of time until you come around too

This fight is near; it's impending fate  
The swelling waves are going to break  
We're heading for disaster; it's the end  
There isn't much more that I can take

We've become so different from who we used to be

Don't waste your breath  
That just won't work for me  
I've already decided who I want to be  
Although I used to be like you  
I found the road to my own truth  
It's just a matter of time until you come around too

I've pulled the wool back and allowed myself to see  
I'm finding out what it's like to be myself and free  
Starting to see the world through a different set of eyes  
I'm feeling wide awake and finally living my own life

We've become so different from who we used to be

Don't waste your breath  
That just won't work for me  
I've already decided who I want to be  
Although I used to be like you  
I found the road to my own truth  
It's just a matter of time until you come around too

Ooh-whoa-oh  
Ooh-whoa  
Ooh-whoa-oh-ah-oh-oh

Ooh-whoa-oh  
Ooh-whoa  
Ooh-whoa-oh-ah-oh-oh
