

End Of An Era

Close To Home

Lets not get carried away,
We've been here for years,
And today, is the day,
To open up your eyes and see,
There's nothing left here in this town,
You fail to seek a common ground,
You're all just part of what I used to hate

We came, we saw,
There's no turning back,
we're moving on
we came, we saw,
We move along

I hear you talking out loud,
and You really don't know
what you're talking about
I'll make you eat those words you speak,
I've seen this time and time again,
You come to me like I'm your friend,
But you'll turn around and tear me apart,

We came, we saw,
There's no turning back,
we're moving on
we came, we saw,
We move along
