

# Nights Like Tonight

Close To Home

What is it about the way that we can talk for hours  
Never running out of things to say  
I never could imagine you leaving  
Until somehow I drove you further away  
Now you're gone and I see you were right  
All this time

It's time for new beginnings  
This one we'll start from scratch  
Forget the moment you left  
And things that we said  
Kill the past and never look back

Let's take a second lease on life  
Another chance to make it last  
Every mistake we made  
Was just a figment of the past

You've got me dreaming  
And I've got this feeling  
Things may cave in like before  
But let's not relive the nightmares anymore

Been patiently trying to stop you from crying  
Nothing I do seems to make it right  
So I'm leaving tonight  
Let's go far from these crowds and the lights  
Leave them behind

It's time for new beginnings  
This one we'll start from scratch  
Forget the moment you left  
And things that we said  
Kill the past and never look back

Let's take a second lease on life  
Another chance to make it last  
Every mistake we made  
Was just a figment of the past

Nights like tonight  
Nights like tonight make all the difference

Nights like tonight  
Just what I needed to clear my mind

Nights like tonight  
Nights like tonight make all the difference

Nights like tonight  
I found the answers I hoped to find

Things may change eventually  
Just wait for it, just wait for it  
We could be so much better  
If we tried a little bit

Ready for the world  
I reclaim my life  
Let's take it back

It's time for new beginnings  
This one we'll start from scratch  
Forget the moment you left  
And things that we said  
Kill the past and never look back

Let's take a second lease on life  
Another chance to make it last  
Every mistake we made  
Was just a figment of the past
