

# Kissing Cousins

## Closure in Moscow

We have never lived we have never even tried  
Come on now give that burden to me  
We have never lived  
We're just creeping all our days  
And you could feast age  
Feast and still feel famine all the same  
When this food's an orgasm dripping context down my drains

We've had our chances  
We didn't see them through

It never ends (never ends never ends)  
Carry on the sin  
It never ends it never ends  
We can never rest  
It's like kissing cousins It's like breaking bread

It gets me so frustrated  
Everyone's an expert I'm so sick of it  
Makes me want to gouge a thousand eyes  
Cho cho choke five hundred throats  
Feed them to the fishes  
Swimming in swimming in swimming in my moat  
While I sit in my castle (perched all alone)  
Disconnected on a sullen throne

It never ends (never ends never ends)  
Carry on the sin  
It never ends it never ends  
We can never rest  
It's like kissing cousins It's like breaking bread

Sing it  
Born of detriment  
Come on sing it  
Born of all the ills that lead us in

They're not stopping  
It never ends so forever they roam

While I sit in my castle (perched all alone)  
Disconnected on a sullen throne

We have never lived  
We have never even tried  
No we have never lived  
We have never even tried

Come on now give that burden to me

It never ends (never ends never ends)  
Carry on the sin  
It never ends it never ends  
We can never rest  
It's like kissing cousins It's like breaking bread

Sing it

Born of detriment  
Come on sing it  
Born of all the ills that lead us in
