

Island Sun

Clou

When it's time to go
And it's all used up
I know, you know
That we've had enough of useless things
Of all it brings
Why don't you just walk away

Make your peace at first
You say you were betrayed
It must have hurt
Worse if you stayed, watch what you say
We looked away
But it's time to move on and go

New day you'll see
New day you'll see
New day you'll see
The island sun is calling out your name
New day you'll see
New day you'll see
New day you'll see
Just leave behind the problems and the rain

Born with all the breaks
Go and save the earth and its mistakes
It's just for your fame, don't say my name
I'm not to blame
I'm just going around for the ride

Send your thoughts away
To me and all of the ones for which we played
Take back your things, take back your things
Take back your things
If you think you never had a friend

New day
New day
New day
You'll see
