

# Lean On My Shoulder

Clou

I can't believe  
When you said that you never come back  
So I wait  
But you know my heart is broken  
Can't you see  
You mean everything to me  
I miss your face  
I miss your words  
I miss your laughter

So what is love  
Do we know  
I know we need  
To let is show  
Tell me ?? we've got to take it  
So what is change  
And what is blame  
Do they need  
To be the same  
Come back to me  
And let's get started

Do you wanna lean on my shoulder  
Do you wanna talk all night  
Get get up  
Coz' we got got  
To make it right  
Do you wanna lean on my shoulder  
Do you wanna talk all night  
Get get up  
Coz' we got got  
To make it right

I know the things  
That you love and that makes you sad  
I know your fears  
I know your dreams  
Because you told me

And if you find  
That there is something left to be said  
Now is your chance  
Coz' you know I'm still here waiting

Do you wanna lean on my shoulder  
Lean on my shoulder  
Lean on my shoulder

So what is love  
Do we know  
I know we need  
To let is show  
Tell me ?? we've got to take it  
We've got to take it  
So what is change  
And what is blame  
Do they need

To be the same  
Come back to me  
And let's get started

Do you wanna lean on my shoulder  
Do you wanna talk all night  
Get get up  
Coz' we got got  
To make it right  
Do you wanna lean on my shoulder  
Do you wanna talk all night  
Get get up  
Coz' we got got  
To make it right

Do you wanna lean on my shoulder  
Do you wanna talk all night  
Get get up  
Coz' we got got  
To make it right  
Do you wanna lean on my shoulder  
Do you wanna talk all night  
Get get up  
Coz' we got got  
To make it right
