

Everybody Here Is A Cloud

Cloud Cult

And everybody here is cloud
And everybody here will evaporate
Cause you came up from the ground
From a million little pieces
Have you found where your place is?
Have you found where your place is?
Have you found where your place is?

You've been spending your time
Thinking about why you think so much
If there was ever a time
Now would be the time to see
Your time here is limited

And everybody here is a crowd
We all walk around with a million faces
Somebody turn the lights out
There's so much more to see
In the darkest places
In the darkest places
In the darkest places

And everybody here is cloud
And everybody here will evaporate
Cause you came up from the ground
From a million little pieces
Have you found where your place is?

Everybody here is waiting for the next creation
They say come come come

Everybody here is waiting for the next creation
They say come come come

And everybody here is a crowd
We each walk around with a million faces
And you came up from the ground
From a million little pieces
Have you found where your place is?
Have you found where your place is?
Have you found where your place is?
