

# Take Your Medicine

Cloud Cult

Bought myself a new look  
Something gave me another chance to see  
Each time, each time, I will try to do better  
By now, by now, is where I guess I belong

Pull my fist from my mouth  
I beat myself for a quarter century  
Remind, remind  
That it's bigger than me  
Dissolve, dissolve  
Into evergreens

These are things that I keep hidden in belly  
I can't see them but they control my life  
For a moment you could see right through me  
See right through me  
Help me make this right  
Look at all those skeletons running from their closets  
Get them in the light

These are things that I keep hidden in belly  
I can't see them but they control my life  
For a moment you could see right through me  
See right through me  
Help me make this right  
Look at all those skeletons running from their closets  
Get them in the light  
Get them in the light

You can take it in stride  
Or you can take it right between the eyes  
Suck up, suck up  
And take your medicine  
It's a good day, it's a good day  
To face the hard things

Pull my fist from my mouth  
I beat myself for a quarter century  
Remind, remind  
That it's bigger than me  
Dissolve, dissolve  
Into evergreens

We found  
Beautiful babies  
Sleeping in our ribs  
Get them in the light  
Get them in the light
