

# The Tornado Lessons

Cloud Cult

You fake it till you make it  
That's the story of your life  
Tea parties with tornados in the middle of the night

Uh-huh, mh-hmm, uh-huh, mh-hmm

You got your finger on the trigger  
But you never want to fire  
When you belly up your aim  
Right to the centre of the sky

Ha ha ha ha ha ha

Right to the wrong  
To the bad to the good  
To the dark, to the dark, to the light  
Right to the wrong  
To the bad to the good  
To the dark, to the dark, to the light

Ha ha ha ha ha ha

You fake it till you make it  
That's the story of your life  
Tea parties with tornados in the middle of the night

You got your finger on the trigger  
But you never want to fire  
When you belly up your aim  
For the centre of the sky
