

Washed Your Car

Cloud Cult

I washed your car last week
you gave me a kiss on the cheek.
I asked if you'd be my sweet
You said, "Baby not me"

I mowed your lawn yesterday
You gave me six bucks and I say
let's have some lemonade
You said, "Go away"

I built your cupboards out of my bones
Shoveled your snow with an ice cream cone
Asked if you'd be my own
You said, "Leave me alone"

I raked your leaves with my toes
Tilled your garden with my nose
Asked if you would be my beau
You said, "No no no"

I built your cupboards out of my bones
Shoveled your snow with an ice cream cone
Asked if you'd be my own
You said, "Leave me alone"

I raked your leaves with my toes
Tilled your garden with my nose
Asked if you would be my beau
You said, "No no no"
