

Been Through

Cloud Nothings

Nothing's working, nothing's working
Nothing's working, nothing's working
Do you feel alright?
You shouldn't
Nothing's working, nothing's working
Nothing's working, nothing's working
Nothing's working, nothing's working
Do you feel alright?
You shouldn't
Nothing's working, nothing's working

You're getting older
You're getting older
You're getting older
Now

You're getting older
You're getting older
You're getting older
Now

I am understanding but I can't believe what you've been through
I am understanding but I can't believe what you've been through
I am understanding but I can't believe what you've been through
I am understanding but I can't believe what you've been through

Nothing's working, nothing's working
Nothing's working, nothing's working
Do you feel alright?
You shouldn't
Nothing's working, nothing's working
Nothing's working, nothing's working
Nothing's working, nothing's working
Do you feel alright?
You shouldn't
Nothing's working, nothing's working

You're getting older
You're getting older
You're getting older
Now

You're getting older
You're getting older
You're getting older
Now

I am understanding but I can't believe what you've been through
I am understanding but I can't believe what you've been through
I am understanding but I can't believe what you've been through
I am understanding but I can't believe what you've been through

I am understanding but I can't believe what you've been through
I am understanding but I can't believe what you've been through
I am understanding but I can't believe what you've been through
I am understanding but I can't believe what you've been through
